Consent for Treatment

Covid-19 Pandemic Specific

I
understand that I am opting for an elective consultation / treatment/ procedure.

I understand that the novel coronavirus, the World Health Organization has declared COVID-19, a worldwide pandemic and that COVID-19 is extremely contagious and is believed to spread by person- to-person contact; and, as a result, social distancing is recommended. This is not entirely possible with my proposed treatment; however, I am satisfied that safety measures are in place to minimise risk as much as possible, and patient contact will be kept to an absolute minimum required for the procedure.

I understand the director of Just Enhance Aesthetics is closely monitoring the COVID-19 situation and have put in place reasonable preventative measures aimed to reduce the spread of COVID-19. However, given the nature of the virus, I understand there is an inherent risk of becoming infected with COVID-19 by proceeding with treatment, by virtue of close contact. I hereby acknowledge and assume the risk of becoming infected with COVID-19 through this elective consultation/medical treatment/procedure, and I give my express permission to proceed.

I understand the COVID-19 virus has a long incubation period during which carriers of the virus may not show symptoms and still be highly contagious. I understand that COVID-19 can cause additional health risks, some of which may not currently be known now, in addition to those risks associated with the medical consultation/ treatment/procedure itself.

I have been given the option to defer my medical consultation/treatment/procedure to a later date. However, I understand all the potential risks, including but not limited to the potential short-term and long-term complications related to COVID-19, and I would like to proceed with my desired medical treatment/procedure

I confirm that I have completed the prescreening questionnaire and to my knowledge am not carrying or suspected of carrying the virus.
